

Engr. Ekene Emmanuel Ajemba

Applied AI Engineer Abuja, Nigeria (Open to Remote) | +234 703 341 0588
youreng@gmail.com | [LinkedIn](#) | [GitHub](#)

Professional Summary

Versatile Data Professional and Engineer with over 7 years of experience in data science, machine learning, and technical operations. Expert at architecting modular ingestion engines and building REST APIs to bridge the gap between raw data and actionable business insights. Proven track record in developing AI-driven tools, such as WhatsApp-friendly practice bots, to drive community engagement and technical skill adoption.

Core Competencies

- **Languages & Frameworks:** Python (Advanced), SQL, Machine Learning (Supervised/Unsupervised), NLP.
- **AI Engineering:** API Development (REST), Modular Ingestion Engines, Prompt Engineering.
- **Data Ops & MLOps:** Data Pipeline Architecture, ETL Processes, Scalable Data Solutions.
- **Tools:** Power BI, Google Cloud, Docker, Git, epiCollect5, MS Office Suite.

Professional Experience

3MTT Nigeria | FCT Community Admin & Volunteer Nov 2023 – Dec 2026

- **AI Tool Development:** Designed and developed a "WhatsApp-friendly" Exam Practice Bot to help 3MTT fellows practice technical skills in AI and Data Analysis.
- **Data Collection & Processing:** Utilized Generative AI and epiCollect5 to collect and process field data for the "#DigitalVillage" survey with high accuracy.
- **Technical Leadership:** Led fellows to the National Impact Summit and managed media outreach lead for major tech festivals like ETF2025/2026.

African University of Science and Technology | Technical Assistant (Part-Time) 2020 – Present

- **Workflow Optimization:** Utilized digital tools to organize research workflows and support faculty engagement.
- **Technical Training:** Conducted masterclasses on communication tools and statistical applications across three different operating systems.

Quintessence Nigeria Limited | Technical Operations & Support Lead Nov 2014 – Sept 2019

- **System Administration:** Responsible for updating, maintaining, and backing up web portals, ensuring maximum uptime for client-facing systems.
- **Process Optimization:** Streamlined the feedback loop between customers and technical teams to improve product fit and user experience.

BackHome Ltd | Data Operations Officer Nov 2011 – Feb 2012

- **Data Integrity:** Managed the profiling, encryption, and verification of candidate data for

WAEC SQL file servers, ensuring 100% accuracy for high-stakes records.

Key Projects

- **3MTT Exam Practice Bot:** Developed an automated certification simulator using Python to drive user engagement and skill validation within the 3MTT community.
- **Data Ingestion Engine:** Architected modular engines capable of processing diverse formats (PDFs, images) into structured datasets.
- **LinkedIn Optimization Analysis:** Conducted research on personal branding mechanics and viral reach to optimize lead generation strategies.

Education & Certifications

- **Associate Degree, Computer Science** | University of the People / BYU-Pathway.
- **Degree, Computer Engineering** | University of Nigeria, Enugu Campus.
- **Merit Badge, Google Cloud Developer** (2026).
- **IBM Data Science Professional Certificate** (2022).
- **English for IT 1 & 2** | Cisco & NITDA (2025).
- **Career Essentials in Generative AI** | Microsoft & LinkedIn (2024).
